Re: **ORAL EX PARTE PRESENTATION**  
*Amendment of Parts 1, 21, 73, 74 and 101 of the Commission's Rules to  
Facilitate the Provision of Fixed and Mobile Broadband Access,  
Educational and other Advanced Services in the 2150-2162 and 2500-  
2690 MHz Bands – WT Docket No. 03-66*

Dear Ms. Dortch:

On June 2, 2005, Monsignor Michael Dempsey, Executive Director of Trans Video Communications ("TVC"), along with counsel John I. Stewart, Jr., Stephen Palan, and Michael Lazarus of Crowell & Moring LLP, met with Uzoma Onyeije, John Schauble, Nancy Zaczek, and Henry Allen of the Wireless Telecommunications Bureau regarding the above referenced proceeding. At the meeting, TVC discussed the importance of grandfathered E and F channels in helping to fulfill an evolving educational mission as school systems pursue technological innovation and face increasing budgetary pressures. TVC discussed the "split-the-football" approach supported by a number of commenters in the proceeding as a compromise position that will permit both BRS and grandfathered EBS licensees to continue to provide service and introduce new services. In addition, TVC discussed the technical feasibility of the "split-the-football" approach.

TVC also discussed the problem of potential interference to fixed services in the band from the introduction of mobile services, both before the BRS/EBS transition occurs and after that transition.

Pursuant to Section 1.1206(b) of the Commission's Rules, 47 C.F.R. § 1.1206(b), this summary of our discussion is being filed electronically. Should any questions arise concerning this matter, kindly contact the undersigned.

Respectfully submitted,

/s/ John I. Stewart, Jr.
